

MALAK SERIES

VOLUNTEER HANDBOOK

2019 Palmetto Relay Handbook for Volunteers

Thank you for volunteering for the 10th annual Palmetto Relay /200 and Palmetto Relay /70. Without you we would not be able to have a successful relay. Please do not hesitate to advise us if you experience something that could make this event better, safer, and more rewarding for everyone involved.

The following pages contain the Volunteer Handbook. Please read and let us know if you have any questions.

Your #1 priority & ours IS TO ENSURE A SAFE EVENT for everyone (including you)!

The Palmetto Relay /200 covers 200 miles beginning in Columbia and finishing in the Town of Awendaw Park. A 70-mile version of the race is being run concurrently beginning Saturday morning starting just outside of Moncks Corner and also finishes at the Town of Awendaw Park. The runners of the Palmetto Relay /70 run the last third of the 200-mile race.

Volunteer Bin Pick Up: Most volunteer bins will be dropped off no later than 5:00 pm on Thursday (March 21). It is not required to pick up your bin early, but if you plan to pick it up early e-mail us at info@palmetto200.com to make sure we have dropped yours off. Some of the zones have more pedestrian traffic and we wait until closer to when the zone opens to drop them off.

Night legs: Night legs are designated as legs run between 7PM through 7:30AM.

IN CASE OF EMERGENCY

In case of emergency call 911. We have worked with each county EMS and they are aware of the race route and times we will be coming through their county. You can find address information for where you are located on the legs maps and in this set of notes included in the volunteer bin. If there is a situation that does not require 911, but you still need immediate medical assistance, listed below is the closest hospital to each exchange in the race (**Note: your exchange number can be found on the volunteer assignment sheet in your volunteer bin**):

Legs	Nearest Hospital	Phone Number	Address
Start through Exchange #4	Lexington Medical Center	(803) 791-2000	2720 Sunset Blvd, West Columbia, SC 29169
Exchange #5 through Exchange #19	Regional Medical Center of Orangeburg	(803) 395-2200	3000 St. Matthews Rd, Orangeburg, SC 29118
Exchange #20 through Exchange #31	Moncks Corner Medical Center	(843) 761-8742	401 North Live Oak Dr, Moncks Corner, SC 29461 (on the course)
Exchange #32 through Finish	Roper Saint Francis Mount Pleasant Hospital	(843) 606-7000	3500 North Highway 17, Mt Pleasant, SC 29466

Call if you have any questions or something does not make sense. Race director cell number is Brian Malak (843) 209-3510

TABLE OF CONTENTS

SECTION 1: VOLUNTEERS' KEY TASKS AND RULES TO ENFORCE

- A. Arrival
- B. In Case of Emergency
- C. Day Legs
- D. Night Legs
- E. Rain
- F. Heat
- G. Check-in Sheet
- H. After Last Team
- I. Late Teams
- J. Clean Up
- K. Leaving Volunteer Bin
- L. Closing Down Exchange

SECTION 2: IN CASE OF EMERGENCY

SECTION 3: VOLUNTEERS' OVERVIEW OF HOW THE RELAY WORKS

- A. The General Idea
- B. Volunteer Bin Pick Up
- C. How to Set Up the Exchange Zone
- D. Rate of Teams Coming Through
- E. Purpose of Leg Maps
- F. Rules/Safety
- G. Night Legs
- H. Exchange Zone Time Record

- J. Teams Falling Behind Pace
- K. Volunteer Bin Drop Off

SECTION 4: SUPPLY CHECK LISTS FOR VOLUNTEERS

- A. What to Bring
- B. What Not to Bring
- C. What the Relay Will Provide

SECTION 5: WHEN YOU WILL RECEIVE YOUR DONATION CHECK

MALAK SERIES VOLUNTEER HANDBOOK

SECTION 1: VOLUNTEERS' KEY TASKS AND RULES TO ENFORCE

1. Call or text the race director (Brian Malak - 843-209-3510) when you arrive at your exchange zone.
2. In case of emergency call 911. Local hospital information for each exchange location is provided earlier in this handbook. If an emergency occurs, call 911 and then the race director (Brian Malak - 843-209-3510).
3. Runners are *recommended* to wear reflective vests or brightly colored shirts (bright yellow, orange, green, or pink) on all day legs. Music devices are allowed during day legs. (Day legs time frame is specified on first page of this handbook.)
4. Runners are *required* to wear reflective vests, headlamps (or flashlight), AND blinking lights on front and back during night legs (Night legs time frame is specified on first page of this handbook.)
5. Runners can wear headphones during night legs only if they are using a turn-by-turn directional application to help them navigate the leg. Otherwise, no music devices are allowed during night legs.
6. If it is raining during the day, nighttime gear (reflective vests, headlamps, and blinking lights on front and back) is *required* when running.
7. If the temperature is above 75 degrees, the active runner is *required* to carry a drink (water, Gatorade, etc.) when leaving your exchange zone.
8. Please use the clipboard and team check-in sheet to mark off the arrival of each team.
9. Contact the volunteers at the next exchange zone after the last team goes through your location so they know what to expect (use volunteer assignment sheet in bin to find the phone number).
10. Contact the volunteers before your exchange if a team has not checked in because the volunteers will be able to tell you if the team has gone through their location already (use volunteer sheet in bin to find phone number).
11. Please make sure the exchange zone is clean and pack out all the trash you find. Trash bags are in your volunteer bin.
12. Place your volunteer bin and cone where you found them before leaving.
13. When all teams have come through, contact the race director (Brian Malak - 843-209-3510) to let him know your exchange zone is closed.

Along the way have fun!!! Cheer for the runners and get into the spirit of the race.

MALAK SERIES VOLUNTEER HANDBOOK

SECTION 2: IN CASE OF EMERGENCY

In case of emergency call 911. We have worked with each county EMS, and they are aware of the race route and times we will be coming through their county. You can find address information for where you are located on the legs maps and volunteer sheet included in your volunteer bin. If there is a situation that does not require 911, but you still need immediate medical assistance, the closest hospital to each exchange is listed earlier in the handbook.

SECTION 3: VOLUNTEERS' OVERVIEW OF HOW THE RELAY WORKS

A. The General Idea

The relay covers 200 miles and is comprised of 36 individual legs in which teams will have one runner from their team complete each leg of the relay. The rest of the team will be in one or two support vehicles (six or fewer-person teams usually only have one vehicle). One of the support vehicles will arrive at your exchange zone prior to their runner who is completing the leg leading to your exchange zone. Here, they will drop off the next runner as they wait for their team member running the current leg. A shorter, 70-mile version of the race begins early Saturday morning with those teams beginning 70 miles from the finish line.

Five of the exchange zones are support vehicle exchanges (#6, #12, #18, #24 and #30 – see Volunteer Assignment Sheet for exchange zone number/names) for the teams comprised of 12 persons. These zones will likely be more crowded and already have vans in the parking lot when you arrive. The active support vehicle of runners will be picking up their sixth runner, and the second support vehicle will be coming in to drop off their first runner during this support vehicle rotation. Please note that not all teams in the 200 mile race have 12 runners, and their support vehicle exchanges will occur at other exchange zones.

In total, there are 37 locations (including the start and finish) where runners begin and/or finish a leg of the race. Most legs are between 4 and 7 miles in length.

Teams will be starting as early as 4:30AM on Friday. The relay is designed to finish by 5PM on Saturday. Teams will arrive at the finish line as early as 10:00 AM on Saturday. If you are interested in a post-race celebration, please join us at the race finish and cheer on the runners. The celebration will include food, beer and other beverages, music and more. All volunteers are invited to attend.

B. Volunteer Bin Pick Up

We will be driving the course on Tuesday through Thursday before the race to accomplish two objectives:

1. Place road signs to guide runners through the course and to mark the locations of the exchange zones.
2. Drop off the volunteer bins at each exchange zone.

All volunteer bins will be placed at the exchange zone near one of the entrances to the exchange (if that is an option) or near the port-o-potty/restroom facilities and will be marked with an orange exchange zone cone. This is where you will pick up your bin unless alternative

MALAK SERIES VOLUNTEER HANDBOOK

pickup arrangements have been made. Ideally, you can pick up the volunteer bin at the exchange zone on Thursday so that it is not disturbed or removed, but that is not required.

If you plan to pick up the volunteer bin before the race, contact us at brian@malakseries.com so we can confirm the bin will be there when you plan to pick it up.

In the unlikely event that you arrive at your exchange zone and do not have the supplies needed, please contact the Race Director Brian Malak at (843)209-3510.

C. How to Set Up the Exchange Zone

An aerial map of the exchange zone will be included in your volunteer bin. This map will provide an overview of three locations for your exchange zone:

1. Restrooms/portable toilet
2. Van parking area
3. Runner exchange location – you will place the cone at or near this location (runners will have a slap bracelet that they will pass to the next runner). However, if you feel there is a more optimum placement of the cone for runners to exchange, please use your best judgment. **Note – do not set up the exchange location too near the vehicle entrance.**

Please familiarize yourself with the exchange zone details above so you can help teams as they arrive and wait for their active runner.

D. Rate of Teams Coming Through

The relay has a staggered start in which teams are scheduled to keep a steady flow throughout the race. Our goal is to have all teams finish between 10:00 am - 4:30 pm on Saturday. As a result, most exchange zones will see most support vehicles/teams over a three to four-hour time frame within their assignment time frame.

E. Purpose of Leg Maps

We will include two leg maps with turn by turn directions in your volunteer bin. The leg maps are intended to provide you with an understanding of the legs immediately before and after your exchange zone. **Please inform each runner leaving the exchange about the first turn they will encounter in their run as a reminder.**

F. Rules/Safety

It is your responsibility to make sure each runner on deck is wearing all the required safety gear based on the time of day and temperature. **During Night Legs, runners must wear a head lamp (or carry a flashlight), reflective vest, and blinking lights (front and back) to ensure visibility to all traffic (there are no road closures). One of these items (head lamp, reflective vest, or blinking light) is required by anyone who chooses to leave their van at night.** Also, we highly encourage all runners to wear a reflective vest or a brightly colored shirt (hot pink, yellow, orange or green) for EVERY leg of the race.

And, if the temperature is above 75 degrees, the active runner must carry water or some other form of hydration while running.

MALAK SERIES VOLUNTEER HANDBOOK

Additionally, runners are only permitted to wear headphones at night if they are using a turn by turn voice navigation app while running their leg.

G. Night Legs

Some teams like to run with companion runners at night so that their runners are not running alone. This is allowed: however, the companion runner must wear the required safety gear as well. Also, some teams will have a companion bike rider. We do not promote this, but we do not stop teams from doing this. The biker is out at his/her own risk (this is a running event, and our insurance does not include bikers). However, please encourage the biker to wear the required safety gear.

We also have worked with the county Sheriffs' Departments for the night legs. The county will have patrol cars driving back and forth on the course. They are instructed to stop at each exchange zone as well and to check in with the volunteers to make sure everything is running smoothly. They bring awareness to the race and help out with the race if necessary.

H. Exchange Zone Time Log Sheet

In your bin you will find a clipboard, pens and an exchange zone time log sheet (among other documents in the bin). On the exchange zone time log sheet, we need you to:

1. Check off each team that arrives in the exchange zone. Teams will be arranged numerically by bib number on your sheet.
2. Note the time each team hands the wrist strap from one runner to the next, so we can use this to gauge team paces for future volunteer exchange zone planning. Note that this is not used for timing purposes, so this does not need to be precise.
3. Record any rule violations or other poorly displayed behavior by a team and if any runner gets hurt, accidents, etc.

If for any reason a team does not arrive at your exchange zone, please contact the volunteers at the exchange zone before yours (they will be able to tell you if the team has passed through their exchange zone). Contact the previous exchange zone before contacting the race director, if possible, because the previous exchange zone is likely to have better information than the race director. If you are unable to contact the volunteers from the previous exchange zone, contact the race director.

If the team has passed the previous exchange zone, you can call the exchange zone after yours to see if they have gone through there already as well. If so, you can mark them off your list as it is likely they were inadvertently missed as they exchanged at your location.

I. Exchange Zone Closure

You can leave as soon as all teams have passed through your exchange zone and you have followed the closing procedures. If you are still waiting on teams, we ask that you do not leave the exchange zone earlier than 30 minutes after the final team is expected to arrive at your exchange zone. For example, if the final team is expected to arrive at 10:00 am, please do not depart any sooner than 10:30 am if all teams have not arrived. If the final team has not arrived

MALAK SERIES VOLUNTEER HANDBOOK

at the exchange zone by that time, please contact the race director about how to proceed, but first contact the volunteers at the exchange in front of you.

Sometimes teams are missed as they come through because things can get busy at times. If you are waiting on teams, call the exchange zone after yours to learn if the team you are waiting for has arrived there. If so, you no longer need to wait for them.

Please clean the exchange zone by picking up any trash that you see that was not present when you arrived at the exchange zone. Once done, please pack up all trash in the provided garbage bags and take it with you for disposal if there is not a garbage can available at your exchange zone. By doing so we will have a better chance of using this exchange zone site in future years. Note, teams are responsible for carrying out their own trash, but sometimes items are left behind by accident.

If your exchange zone is providing restrooms in their building, please check the cleanliness of these restrooms before departing. If the restroom appears untidy in comparison to when you arrived, please contact the race director.

J. Teams Falling Behind Pace

Each year a few teams fall well behind their expected paces or just need to make up time. When this happens, we ask each of these teams to let their next runner start running immediately without waiting for the current runner to arrive. This allows the team to make up time while still allowing each runner to run his/her expected legs.

If a team mentions that they are doing this, you do not need to confirm this with the Race Director (but you can if you would like). However, please mark the time that their runner left and the time that their runner arrived on the log sheet. This will allow us to get an overall time for their race.

K. Volunteer Bin Drop Off

After you have finished all your duties at the exchange zone, please place everything back in the container and return it and the cone to where you found it. The shirts are yours to keep. We will have somebody pick up the items the following day.

SECTION 4: SUPPLY CHECK LISTS FOR VOLUNTEERS

A. What to Bring

- Cell Phone
- Wrist watch
- Hat, sunscreen, bug spray, sunglasses for daytime exchange zones
- Water, food (for yourself only. Participants will have their own supplies.)
- Clothing appropriate for the weather
- Flashlight / lantern for nighttime exchange zones
- Chair, tables (optional, but recommended for your comfort)
- Large umbrella/pop-up canopy, binoculars (all optional)

MALAK SERIES VOLUNTEER HANDBOOK

B. What Not to Bring

- Alcohol
- Headphones
- Pets

We ask that you refrain from smoking while volunteering at your exchange zone.

C. What the Relay Will Provide

- Volunteer Handbook (please print this out and bring with you to the race – there will not be a copy in the Volunteer Bin)
- Volunteer Contact Sheet with exchange zone durations – in Volunteer Bin
- Leg maps leading to and from your exchange zone – in Volunteer Bin
- Cone to mark the runner exchange location – with Volunteer Bin
- Garbage bags – in Volunteer Bin
- Exchange Time Record, clipboard and pens – in Volunteer Bin
- Exchange Zone Aerial Map – in Volunteer Bin
- Restrooms (note some exchanges will have portable toilets)
- Volunteer race shirts – in Volunteer Bin and yours to keep
- Bright/Reflective vests – in Volunteer Bin and please return

SECTION 5: WHEN YOU WILL RECEIVE YOUR DONATION CHECK

We will send a post-race e-mail to get feedback and request the address of where to send the donation and then process all donations 2 to 3 weeks after the race. **Volunteers for teams are not eligible for a donation.** The donation is not based on the number of volunteers that work an exchange zone; we require that at least two volunteers manage the duties. **Volunteers who are late or fail to show up for their duties will not only jeopardize the success of the relay but will also forfeit the donation to the charity on their behalf or team refund.**

THANK YOU

Brian Malak
